

On-site clinics

Comprehensive health and wellness based on the unique needs of your workforce.

Your workforce demands a comprehensive and connected health care solution that’s delivered with convenience and quality. Our on-site clinics can deliver that care right in the workplace.

Services include:

- Health and well-being services
- Expert primary care
- Specialty services
- Occupational medicine
- Virtually-enabled care

We can also offer the following services:

- Coordinated behavioral health services
- Pharmacy services and medication delivery
- Navigation to employer-sponsored wellness programs
- Specialty care including women’s health, dermatology, medical weight loss, nutrition and more
- End-to-end solutions integrating claims, wellness and prevention, acute care, occupational services and primary care
